

Voices of Impact is a newly established dementia-friendly choir that caters to older adults in the Northwest Suburban area. This choir is geared for those in early and mid-stages of living with dementia and the caregivers.

Designed specifically for people living with dementia, this special opportunity allows members and their caregivers to share in the joy of music making through singing together.

Our mission is to always promote an inclusive and welcoming environment within our community that supports and encourages those who may have fewer opportunities to spend time with others.

Singers of *all* abilities are joyfully welcomed!

“There’s really no better feeling that I get throughout the week than being at the chorus. It’s uplifting. It’s joyful. It’s a lot of fun. I love to laugh.”
